Education

PhD in Astrophysics (Ongoing)

International Max Planck Research School on Astrophysics (IMPRS) Max Planck Institute for Astrophysics (MPA), Garching, Germany

Ludwig Maximilians University (LMU), Munich, Germany

Duration: 2021-Present

Master of Science}

Indian Institute of Science (IISc), Bengaluru, India

Major: Physics Duration: 2020-2021

Bachelor of Science (Research) Indian Institute of Science (IISc), Bengaluru, India

Major: Physics Duration: 2016-2020

Research Experience

The dynamics of magnetized, multiphase gas in a turbulent environment

[8 SEP 2021 - PRESENT]

We are studying the different aspects of multiphase gas, like survival, morphology and growth, in a turbulent medium in presence of magnetic fields. We use idealised MHD simulations run using Athena ++ for this study.

Doctoral Advisor: Dr. Max Gronke Formal supervisor: Prof. Volker Springel

Max Planck Institute for Astrophysics, Garching

Role of temperature and metallicity in the evolution of thermal instability

[1 AUG 2019 - PRESENT]

This project contributed towards my Bachelors thesis and led to a research paper in collaboration with Dr. Prakriti Pal Choudhury and Prof. Prateek Sharma.

Under supervision of: Assoc. Prof. Prateek Sharma

Collaborator: Dr. Prakriti Pal Choudhury Physical Sciences, Indian Institute of Science, Bangalore

Computational Studies of Systems of Self-driven Particles

[8 MAY 2019 – 12 JUL 2019]

This project aimed at investigating the underlying physical origin of this "phase transition" via the development of appropriate computational models.

Under supervision of: Assoc. Prof. Massimo Pica Ciamarra

School of Physical & Mathematical Sciences, Nanyang Technological University, Singapore ->

Conferences and Seminars

• Modelling of Multiphase Astrophysical Media (May 30-June 2, 2023)
Presented a ~15 min talk about my work. In-person at Aspenstein Castle, near Lake Kochel,
Germany

• MPA weekly Institute Seminar (May 15, 2023)
Presented a ~45 min talk about my work. In-person at MPA, Garching, Germany

 \bullet 52nd Saas-Fee winter School on "The Circum-Galactic Medium across cosmic time: an observational and modelling challenge"

(March 19-24, 2023)

Presented a poster about my work. In-person at Les Diablerets, Switzerland

• Team meeting for "Observe Local Think Global: What Solar Observations can teach us about Multiphase Plasmas across Astrophysical Scales"

(March 13-17, 2023)

Presented an introduction for simulations in ICM/CGM, and my work. In-person at ISSI, Bern, Switzerland

- The Multiphase Circumgalactic Medium (February 26- March 3, 2023)
 Presented a ~15 min talk about my work. In-person at Ringberg Castle, Germany
- Lyman-X Day: ORIGINS workshop (October 5, 2022)
 Attended in-person at European Southern Observatory (ESO), Garching
- The National Astronomy Meeting (NAM) 2022 (July 11-15, 2022)
 Attended virtually and submitted a poster for the parallel session "Non-equilibrium thermodynamics across scales: from the solar corona to the intracluster medium".
- Gas Flows around Galaxies: ORIGINS workshop (May 24, 2022) Presented my work in-person at MPA, Garching
